# Acknowledgements

*We respectfully acknowledge the traditional owners and custodians of the land on which we operate, the Whadjuk people, as well as other First Australians connected with this land. We pay our respects to Elders both past and present.*

We thank Silvana Ferrario, Liz Berry, Neil Elliott, Denise Bending, Yvonne Wadley, Julie Smith, Melissa De Winter, Anna Whiteside, Jen Kerr, Ian Kay, Stacy Gardoll, Dee Constable and Craig McKeough (the organising team) who give their time to make this event happen; the advertisers who help make this brochure possible; and all our volunteers.

A big thanks also to the visitors who appreciate and support local artists and, of course, to all the artists who have opened their studios with a warm welcome.

We are delighted to announce that the Shire of Mundaring are now major sponsors of this event.

We would also like to thank the Shire of Mundaring for awarding us the 'Citizens Award for Inspirational Volunteers' on 26 Jan 2024. Congratulations to everyone involved.

## Welcome

Our artists are looking forward to seeing you in 2024 and inviting you into their creative spaces.

The open studios event is a once-a-year opportunity to meet our artists and to discover where the magic happens.

### Creative inspiration

The Hills of the Mundaring area have long been a hub for creative people who find inspiration from the natural environment, with its spectacular forests, winding waterways and prolific wildlife.

Mundaring is a little over 30km from the city and makes for a comfortable day trip for people who want to sample a slice of "the Hills" life and to discover the artists who make the area their home.

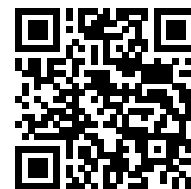

### Something for everyone

This year, Mundaring Hills Open Studios is bigger than ever, with 75 artists working across a wide range of mediums and genres. There are 37 studios open to visitors, stretching from Swan View and Greenmount in the west to Chidlow and Gidgegannup in the east.

Whether you enjoy landscape paintings, sculpture, ceramics, jewellery, abstracts, glass, textiles or woodwork, there is something to appeal to everyone.

# Make the most of your art adventure

## Plan ahead

Please take time to browse this brochure. There is a lot to take in on the art trail so it's useful to plan ahead and map out a journey. This will help you take in your own highlights at a leisurely pace and connect with the artists and artworks that are right for you. We have developed an interactive Google maps function to show the location of each artist.

Take a chance on an artist you don't know, especially those in the eastern part of the region. You never know what you will find!

You can also visit our website [mundaringhillsopenstudios.com](http://mundaringhillsopenstudios.com) or scan the QR code below on adjacent page for more information about our artists and see more of their work before you set out.

## Respect

Our artists are excited to see you, but we ask that you supervise your children and pets while you are in their studios.

Please ask permission before photographing any artworks.

Feel free to ask questions. Our artists love to talk to people about art!

But remember, if you feel unwell, it is best to refrain from visiting.

## Eat, drink, stay

While you are in the Hills, take the time to enjoy our other attractions. There are many places to eat and drink – from charming old pubs to cafes, restaurants and wineries serving a diverse range of quality fare.

There are also many places to stop and enjoy the natural environment that inspires our artists. Take time to breathe the air and take in the scenery.

And if you want to stay a little longer, there is a variety of places for overnight accommodation to really appreciate the Hills lifestyle.

You will find a few places to try listed on page 9 of the brochure.

We hope you enjoy your experience of Art in the Hills. See you on the art trail.

My art is an exploration of the intricate beauty found in nature, specifically within the realm of Western Australian botanicals. Through the medium of oil paint, I seek to capture the delicate details, vibrant colours, and subtle textures which define each plant.

Ultimately, my paintings serve as a celebration of nature's diversity and an invitation to find solace and inspiration in the natural world. I hope to awaken in the viewer a renewed sense of wonder, and foster a deeper connection to the beauty that flourishes all around us.

Bernard's work is featured in international collections and publications. He is also an author concerning Australian ceramics.

He is interested in landscape and still-life painting, the relationships between images and objects how their meaning is altered when constructed in three dimensions in the ceramic medium.

Other aspects of Bernard's work reference the Western Australian landscape's ancient eroded landforms and the wildflowers that have evolved in it, especially in the terrain of the Perth Hills.

### JENNY KERR - Ceramics

T: 0451 534 030 E: [jennykerr77@gmail.com](mailto:jennykerr77@gmail.com)

Currently I am making a range of tableware that explores the 'in between'. Made by slumping slabs of clay over moulds these forms become canvases for glaze to flux, fuse and flow and perform magic in the heat of the kiln.

Each surface reveals qualities evident in the landscape. Similarly my pinched pots are an ongoing creative meditation on country I have lived on, camped beside or travelled through.

Robbie Kerr, a versatile ceramic artist, transforms stoneware clay into functional and artistic pieces. He predominantly uses the potters-wheel to create the pieces and uses a variety of firing techniques to finish them. His current exploration involves carving into the surface of his pieces, drawing inspiration from patterns found in the natural environment.

The use of glazes and coloured slips and accentuates the intricacies, creating a captivating interplay with the clay body. Robbie shares his skill, teaching wheel-throwing at multiple pottery studios in Perth.

T: 0418 908 763 E: [siju@live.com.au](mailto:siju@live.com.au) W: [sijuglass.com](http://sijuglass.com)

I make kiln formed glass inspired from childhood memories, my experiences as a subsea engineer and scuba diver, and my surroundings in the hills. I find great joy in making glass pieces. I can lose myself in designing and assembling the glass to go into the kiln. Then the excitement of opening it when the firing is finished, to see how the heat has transformed the glass – often beyond expectations, sometimes catastrophic, but always fueling more inspiration.

Come to my studio and see how the glass pieces are made.

She is embracing this departure from her most recent participation in the Murajuga exhibition and curating 'Creating Connections'.

We revisited the Cape to Cape track so I indulged in seascape watercolours. Finally, we did an epic journey across the Nullarbor to Canberra and then north - a great source of inspiration across different media.

June began painting later in life, focusing on landscapes and seascapes in an impressionist/realist style. She loves the magical effect of light on our world and wants to share that through her paintings. This year she has also been exploring new ways of expressing emotion in her figurative art.

June is currently venturing into new painting techniques and finding the experience a journey of fun and discovery. She believes this is already influencing her earlier impressionist style.

She has a light-filled studio overlooking ponds, paddocks and trees. A perfect artist's hideaway.

Cindy learned embroidery as a child, then came a love of painting and quilt-making. Cindy uses pattern, colour and repetition to represent the rhythms and seasons of life, whilst multiple narratives and perspectives are expressed through layering and overlapping. Craig is a visual artist who is inspired by nature and the unique Hills environment. He specialises in botanical contact printing on paper using eucalyptus leaves and other material, and also works in charcoal, pastels and acrylic. His focus is always on creating visually exciting abstract images which hint at objects, landscapes and natural features, and evoke a sense of place rather than a precise representation. He uses experimental and gestural mark-making, often with a limited palette, to produce layered images which are spontaneous, intuitive, and open to interpretation.

Much of her work reflects her love of language and ideas. Her often quirky pieces are a kind of 3D story telling, each with its own tale to share.

Rockhounds since early childhood, it wasn't until they completed art-metal and lapidary courses several years ago that their creative inspiration to craft jewellery was fully ignited. #### LEE-CAROLINE JOHNSON - Glass

T: 0421 115 468 E: lee-caroline@live.com.au W: leejohnsonartglass.com

Embracing hands-on creation, Lee explores glass art using various techniques, drawing inspiration from our tranquil hills. Recently starting her artistic journey, Lee has exhibited works at Castaways, Glass in Isolation (2022 and 2023), Darlington Arts Festival and many local art exhibitions, winning an award for excellence in glass at Ellenbrook Art Festival. Through glass, Lee aims to convey vulnerability and strength. Glass as a medium is filled with contradictions being both hard and fragile, it can be fluid and brittle. Glass is very fickle master and each piece is unique.

#### CLAIRE GIRDLESTONE - Drawer, Jewellery Art to Charm

T: 0438 716 047 E: hello@arttocharm.com.au W: arttocharm.com.au

With a keen interest in all arts, Claire has focused her energy and spent the last six years creating personalised jewellery and digital portraits, designed and handmade in her home studio.

The designs are based on ideas special to each client. Every piece is unlike another. They connect our life moments, relationships, and loves into a tangible and beautiful keepsake.

Her pieces are primarily made of solid sterling silver and some gold. They are created with a lot of love, and then engraved designs create the final impact.

Admiring a burnt orange and fuchsia sunset, or a Payne's grey and indigo stormy day are inspirational. My art practice is my life journey, always learning and enjoying the processes. The different tones, hues, shapes and texture in changing seasons are inspiration. Collage is always interesting, combining familiar and unfamiliar images and objects and so can express a point of view or make a commentary. Teaching and helping people find their own creativity journey is amazing, the friendships, laughs and new people that like art are such a fantastic benefit.

We are looking forward to our students (of all ages), being able to have the opportunity to experience swimming lessons and develop their abilities in our natural environment.

Come on a journey with me as I explore aspects of the natural world in intricate layers of beeswax... I enjoy experimenting with various mediums including oil paint, alcohol ink, watercolour and sketching, combining this with the ancient art of encaustic (beeswax painting). Inspired by nature my work showcases a unique approach to botanical, anatomy and landscape artwork. My studio welcomes you with the smell of hot beeswax and looks out over eucalypt bushland covered in spring wildflowers. I love sharing my process so stop in for chat and demonstration.

**KAT HARDWICK** - Painter

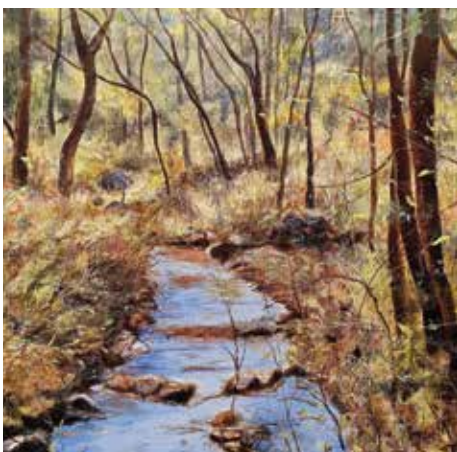

T: 0411 167 611 E: katthardwick@gmail.com

Kat Hardwick grew up in the French Pacific and on the East coast of Australia before moving to WA with her Perth born husband, and has been in love with the arts for as long as she can remember.

Since moving into her own long awaited studio, Kat has increasingly moved away from purely representational landscape; instead, mixing the conventions of landscape with abstract elements to convey sometimes abstract ideas, moods or an emotion with her beautifully expressive mixed media paintings.

**CAINE SCOTT** - Jeweller, Metal work, Resin, Sculptor, Visual Artist, Wood

T: 0417 722 164 E: [cainescott@gmail.com](mailto:cainescott@gmail.com)

Caine was born and raised in the Eastern Hills of Perth. Upon finishing his trade as a smash repairer/spray painter he ventured to the town of Broome. That's where he soon discovered the art of blacksmithing and the life long obsession began.

Specialising in only one off pieces forces him to push the limit of design with each and every new piece created. With a love of Australian history Caine loves to weave rustic vintage items of days gone past into his art to give them a new lease of life.

**JO-ANNE MAIRE** - Glass

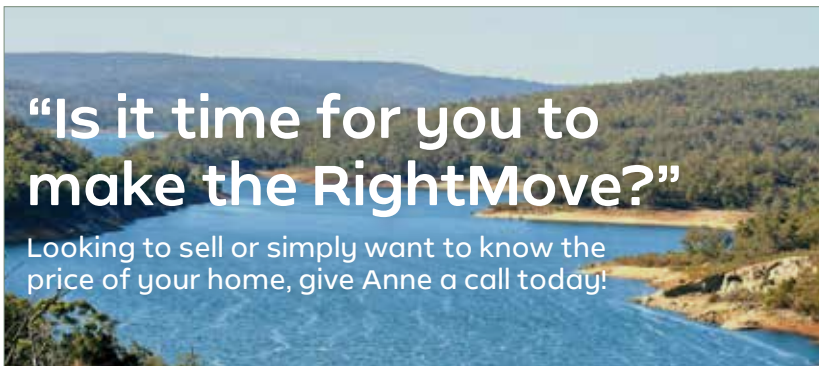

T: 6292 0308 E: [joanne.maire@gmail.com](mailto:joanne.maire@gmail.com)

I am a retired university academic with a background in science. Training in scientific glassblowing at university piqued my interest in all things glass.

My work incorporates various warm glass processes including casting, kiln forming and murrine making. My creativity is mainly process driven and inspired by the challenges of innovation. My body of work is always evolving and therefore quite eclectic. I am currently innovating techniques for ice casting with glass at my studio in Kalamunda.
