

Guide to your event application

Introduce yourself

- Ensure that your artist statement distinctly reflects your art and captures your identity as an artist.

It's true, first impressions count!

- Highlighting your most popular piece is the optimal choice for featuring in the brochure.

Keep your photos fresh

- If you're not a newbie to MHOS, ensure your images are works that haven't previously been included in MHOS advertising.

Ready for my close up

- Close-ups and framing are crucial as they help highlight your artwork. Ensure that your piece is the central focus.

Lights, camera, action

- Keep your photos clear and well lit, the easier they are to see, the easier you become a must-see artist.
