

2. What to post when you do not know what to post

Show the work

Post finished pieces plus one tight detail shot. Texture sells.

Show the process

Time lapse, hands at work, tools, mixing colour, glazing, sanding, stitching. Behind the scenes is welcome.

Studio tour

One slow walk through your space. Natural light. No rush. Make people want to visit.

Put yourself in it

A quick face to camera hello helps. People connect with people, not just objects.

What to say in captions

One short story

What inspired it

What you loved making
