Acknowledgements

We respectfully acknowledge the traditional owners and custodians of the land on which we operate, the Whadjuk people, as well as other First Australians connected with this land. We pay our respects to Elders both past and present.

We thank Silvana Ferrario, Liz Berry, Neil Elliott, Denise Bending, Yvonne Wadley, Julie Smith, Melissa de Winter, Nichola Constant, Jen Kerr, Ian Kay, Stacy Gardoll and Craig McKeough (the organising committee) who give their time to make this event happen; the advertisers who help make this brochure possible; and all our volunteers.

A big thanks also to the visitors who appreciate and support local artists and, of course, to all the artists who have opened their studios with a warm welcome.

Welcome

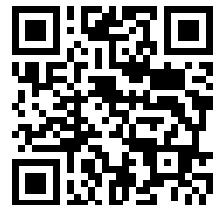

Welcome to Mundaring Hills Open Studios 2023. The event is even bigger this year with 65 artists at 37 locations who will be showcasing their art between Saturday October 21 and Sunday October 29 (including the two consecutive weekends). A glimpse of their work can be seen on our website, mundaringhillsopenstudios.com or scan the QR code below.

Visiting the open studios who participate in the Mundaring Hills event is a unique experience and an opportunity to sample the lives of our local artists. It will also give everyone access to the artists' work which come in an incredible range of mediums – from glass and ceramics to oil paint, watercolours, textiles, wood, recycled metals and much more.

The artists too range across the spectrum - from professionals with international acclaim to those who work part time or as a hobby – and all of them want to share their artistic environment with you. This event gives you a chance to talk to artists, explore their techniques, share ideas, admire their creativity and acquire a unique piece of local artwork.

On the trail there are also many delicious food venues, pubs, wineries and a distillery plus a range of picnic spots – all welcoming you to the hills environment and helping you to create a memorable visit.

Enjoy!

Cover artworks. Sue Findlay, Silvana Ferrario, Liz Berry, Ren Masetti, Kat Hardwick, Lee Potter.

Plan your experience

Grab a coffee and this guide and spend some time browsing through the artists' bios. There is a huge range of artists and art forms to choose from. Don't forget, you can view more of the artist's images through our website mundaringhillsopenstudios.com.

Also follow us on Facebook and Instagram and stay informed with our latest news.

Take your time and drive safely. Overnight accommodation is available (book in advance to be sure), and many of the artists are open through the week or by appointment.

Respect and Connection

Be a great art guest. Please supervise your children and control any accompanying pets. Photography of artwork is at the discretion of the artist and their permission is required. Do ask any questions you have about the artist's work practice; they are happy to share.

Covid constraints

At this time there are no restraints with COVID restrictions. However if you feel unwell please refrain from attending.

Please respect any unexpected closures due to illness or isolation.

Stars in the East

There are 14 artists showcasing their work in some 11 studios east of Mahogany Creek, so it is well worth planning some extra time to enjoy their contribution to this art festival.

Artwork displayed on the eastern flank is comprehensive in both style and mediums and includes painting, drawing, digital and photographic images, prints, sculpture, glass art and ceramics, textiles and weaving.

Magnificent local natural attractions are the back yard of these artists, and they can help direct you to sites in the area including Noble

Falls, the Mundaring Weir, Beelu National Park, Fred Jacoby Park and Lake Leschenaultia.

To see and enjoy so much on offer takes time... which is why we recommend at least an overnight stay in local accommodation. Airbnb opportunities abound (some 26 at last count) and there are numerous pubs, cafes and restaurants in the area.

Plan some extra relaxation this year while you are in the hills and make sure you have the chance to enjoy all that is on offer.

GAYLE MASON - Painter, Drawer, Visual Artist, Educator
 T: 0408 163 264 E: gayle@freemode.com.au W: bellevueartspace.com

Influenced by nature Gayle interprets the sound of the wind, leaves falling, birdsong in the bush, suspended in a moment before its fully formed.

Her work incorporates Natural Mark Making using a variety of homemade brushes and scrapers and her mediums range from ink, pastels, acrylics to oils, cold wax and coloured pigments.

LYNDA KUNTJY - Painter

Lynda explores expressive approaches to painting, incorporating gestural and intuitive mark making. She works in mixed media experimenting with unconventional tools and combining techniques to explore image making. With a process rooted in curiosity and an open mind, she embarks on each artwork without preconceived notions of resolution, finding joy instead in the unexpected results that emerge through experimentation and serendipitous accidents.

Lynda is represented by Riverfront Gallery in Denmark. She is also a Visual Arts teacher.

STACY GARDOLL - Painter

T: 0430 611 463 E: stacy_gardoll@hotmail.com W: stacygardollart.com.au

Stacy's art is all about capturing a moment between the viewer and the natural world. She creates an opportunity for us to become lost in the forms, and the intricacies of the botanical, as we can become swept up in the details, even if just for a moment.

The colours are highlighted further by being set up against dark backgrounds, which gives each flower the chance to shine, without competing with its environment. Playing with scale is also a common theme, as these small-scale blossoms are presented in a magnified way, so they can be seen and enjoyed up close.

CAROLYN FRANCIS - Painter, Drawer, Sculptor

T: 0407 179 686 E: cfrancis626@gmail.com W: carolyn-francis.com

Carolyn works with metals to create sculptures that reflect the natural world. She uses a plasma cutting tool to draw images, often repurposing items like farming and gardening tools. Another way she brings interest to her sculptures is to metalsmith soft light weight metals into organic shapes inspired by sailing and exploring the beautiful ocean and her love of camping and travelling.

Carolyn started life drawing to hone her skills to better represent her sculptures from thoughts to a concept. She soon became obsessed with this practise and started to hold her own life drawing sessions in her Midvale studio.

JENNIE MERRITT - Glass, Jeweller

T: 0415 049 330 E: jenniemerrittdesigns@gmail.com W: jenniemerritt.com

Jennie is a flamework glass artist, melting glass rods in the flame to create components for her jewellery and sculptural pieces. Much of Jennie's work has a botanical style, reflected particularly in her glass flower vases and individual stems. She works in themed collections for her jewellery, and these can be influenced by colour, shape, nature and more.

Jennie also offers the service of remembrance glass, incorporating ashes into glass pieces to create everlasting memorials of loved ones. This is a bespoke service and Jennie is privileged to work with her clients to create keepsakes that they can treasure forever.

Ellis trained as a graphic designer and painter before being bitten by the theatre bug. This took him to Paris where he trained in physical theatre and mask work. For the next 35 years he created a visual, unique style of theatre which he performed all over the world.

Meanwhile his love of the visual arts deepened and he evolved an energetic, visual way of painting. He now teaches theatre in Perth, painting out of his garden studio. Surrounded by the sounds and the wonder of nature, Ellis has plenty of material to inspire him to fill his large canvases.

8 Cielito Marbus, 55 Stone Crescent, Darlington WA 6070

CIELITO MARBUS - Painter, Drawer

T: 0424 102 311 E: cielito@cielitomarbus.art W: cielitomarbus.art

Cielito is a botanist and botanical artist. Born in Newman, Western Australia, she currently lives in Darlington. She produces scientific illustrations for new species publications for the Western Australian Herbarium and has been commissioned to produce Flora for private collections.

Cielito is interested in responses of plants to their habitats and to anthropogenic interactions, particularly the dichotomy of natural process and human intervention. Whilst we cannot help but mould and form our surroundings, we simultaneously seek out and delight in those parts of our surrounds that are untouched by our hands.

GWENAËL VELGE - Visual Artist, Photographer

T: 0420 364 161 E: gwen@gwenvelge.com W: gwenvelge.com

A photographer with a passion for philosophy, I seek out embodied practices that produce emotional and intellectual material for me (and hopefully others) to process.

Flying a paraglider over Western Australian landscapes has helped me experience and think through two concepts: sense of place and the sublime.

My work explores the crossroads of photography, human geography, philosophy and anthropology. I believe the role of art and the artist is to forever represent the world to us. Making it alien and yet also thereby revealing it anew, constantly making us visitors of our own home.

Soul Earth Art

T: 0423 399 590 E: soulearthart@gmail.com

I live in Darlington in the Perth Hills and I am always so inspired by the natural beauty of the bushland that surrounds me.

I love working with clay, making a range of sculptures, small and large, trying different types of clays and glazes is always fun to see what comes out of the kiln.

I really enjoy making one off pieces to challenge myself and work out how I can bring it all together and to take my love for all things clay to the next level.

He produces functional items for everyday use as well as sculptural, painterly and conceptually based pieces. His work is held in a number of government, private and corporate collections and is featured in international publications.

In the family studio on Nyaania Creek in Glen Forrest, she creates limited edition pinch pots, share platters, plates and bowls with glaze combinations that, transformed in the firing process, evoke the natural world around her.

Jen also facilitates the occasional clay meditation at Sanctuary Yoga and Meditation Centre in Darlington.

ROBBIE KERR - Ceramics

T: 0424 152 030 E: r.kerramics@yahoo.com W: rkerramics.com

In his studio practice he is currently on an intuitive journey exploring carving into the surface of his thrown forms to create expressive organic patterns inspired by those found in the natural environment. The glazes and coloured slips Robbie uses to decorate his work accentuate the carved surfaces and help develop a contrast with the natural clay body.

Robbie currently teaches wheel-throwing at Studio P, Perth Studio Potter's Club, South of the River Potter's Club and Tresillian Arts Centre.

Recently she has been creating a range of marbled clay, bringing coloured clays together, resulting in a very exciting outcome to these individual pieces.

She also creates large abstract paintings using metals, such as stainless steel and brass. Profile cut shapes with laser etched patterns enhance the paintings, adding depth and subtle reflections of light throughout the day.

JUNE STEVENS - Painter, Drawer

T: 0419 700 255 E: june.stevens5@bigpond.com W: junestevens-artist.com

June began her painting career later in life, focusing on landscapes and seascapes in an impressionist/realist style. She finds each painting gives her a chance to capture the magical effect of light and atmosphere on this world. Recently June has been moving more towards rural landscapes, exploring through her painting the beauty of the vast and seemingly empty inland of Western Australia.

She enjoys working with oils predominantly with some acrylic painting and drawing in charcoal. June loves her light-filled studio overlooking a duckpond and paddocks with trees and forest as a backdrop.

Bob enjoys working with black and white clay, as well as Raku. All his work is wheel thrown and he throws mostly non-functional pieces concentrating on the beauty of form and glaze effects. Bob loves the exciting and unexpected effects of Raku when the piece is removed from the burnt leaves.

"It's always a surprise and the results usually amaze but on some occasions, it's back to the drawing board!"

Whilst in his studio at his wheel, Bob overlooks a small lake with many wood ducks and black ducks all surrounded by forest.

RIC BURKITT - Painter

T: 0452 259 590 E: bomberic9@gmail.com W: ricburkittstudio.com

Ric is an ex-graphic designer, ex-VET trainer (graphic design and visual arts), and now full-time artist. Primarily a painter, he works in a variety of styles and mediums from his Stoneville studio. He currently enjoys painting semi-abstract florals in oils and acrylics, as well as mixed media landscapes that attempt to capture the mood and feel of Stoneville's surrounding countryside.

Ric's abstract work explores the potential for non-representational painting – using colour, line, shape, texture, and so on – to make emotional connections and convey impressions and insights that may resonate with the viewer.

Luce is a neurodivergent oil painter who tackles a broad range of subjects and styles examining the relationships between the natural and man-made.

JOHANNA ZEELLENBERG - Painter, Drawer, Visual Artist  

T: 0431 147 060 E: johanna@zeelenberg.com.au W: johannazeelenberg.com.au

Johanna was born in Wittenoom in 1973. She has been painting and drawing most of her life, exhibiting for the past 25 years. As a child, she remembers using fallen branches, drawing into the Pilbara red dirt, making marks using found objects to form rhythmic patterns that echo the landscape and the living creatures. These early experiences continue to influence her artistic process, and now, living in Chidlow she is inspired to draw from the local environment. "My landscapes are sometimes ambiguous, dream-like places that seem to have amalgamated from the places that I have lived and travelled to."

Melissa's art highlights the natural world, it encourages a pause to see what is often overlooked. Having discovered the ancient art of encaustic (hot beeswax) painting a few years ago, she now uses this as her main medium either painting directly with beeswax or combining and layering it with alcohol ink, watercolour, sketching and adding natural and reclaimed items for sculptures. Melissa's home studio is a peaceful retreat that welcomes you with the smell of hot beeswax and looks out over natural eucalypt bushland covered in wildflowers in spring.

Caine first discovered the art of blacksmithing in the mid 90s when living in Broome. It was love at first sight and he has never looked back. JO-ANNE MAIRE - Glass

T: 6292 0308 E: joanne.maire@gmail.com

My glass journey began with a scientific glass blowing course at university as part of a science degree. Having explored stained glass techniques and flameworking, I have gravitated to various warm glass techniques such as kiln forming, casting and murrine making.

My works include everything from large wall pieces, functional art (bowls, plates, etc.) to sculptures in glass. I am very excited to introduce a new "Leaf" series at this Open Studios. My "leaves", made from murrine and hand pulled cane are supported by stands made from native timber and forged steel made by Caine Scott.
